Support

- The index page of the project would include the features mentioned, below the "project goal" all the sources and citations will be mentioned.

- The archive section will include a mapping illustration with descriptive details of Salsa's history and geography. It will also include the places where salsa's important figures were born and historic events related to them.

Archive section:

origins & influence

important figures

Salsa map:

Map legend:

(world map highlighting  
specific locations)

important events

- With a mapping software, I want to mix archive data with its locations, use the map as a tool to share data about salsa by including its geographical and historical context.

The features on the right will work as an index and guide through the map.

## Origins and influence section:

### Origins and Influence

Origins and influence

important fig.

(Essay including images and references, summarizing the history of salsa, explaining terms used by salsa, the essay will include every event or major salsa event mentioned in the archive as well as section for important figures.)

The "important figures" section will simply be an index including important salsa figures, singers, composers, orchestra directors, producers, dancers and performers in general.
